

FACT SHEET – CPC30211 - CERTIFICATE III IN CARPENTRY

<p>This qualification provides a trade outcome in carpentry, covering work in residential and commercial applications. The qualification has core unit of competency requirements that cover common skills for the construction industry, as well as a specialist field of work. Completion of the general induction training program specified by the National Code of Practice for Induction Training for Construction Work (ASCC 2007) is required before entering a construction work site. Achievement of unit CPCCOHS1001A covers this requirement.</p>	
Qualification	<p>Upon successful completion of this qualification you will receive a Certificate III in Carpentry CPC30211.</p>
Pathways	<p>After successful completion of CPC30211 Certificate III in Carpentry, you may continue with your studies by enrolling in:</p> <ul style="list-style-type: none"> • Managerial Course: (NOTE: BSBSMB401A Establish legal and risk management requirements of small business can be taken as an Elective in CPC30211 Certificate III in Carpentry as assisting in starting up your Carpentry business). Queensland specific. • CPC40110 Certificate IV in Building & Construction (Building). (One Certificate III competency counts towards the Certificate IV program) (Builder Low Rise license - QLD only) • CPC50210 Diploma of Building & Construction (Building) (Building Practitioner Registration – Western Australia only) • CPC50210 Diploma of Building & Construction (Building) (Builder Medium Rise license - QLD only) <p>Career opportunities include employment as a:</p> <ul style="list-style-type: none"> • Carpenter • Carpenter and Joiner • Installer of Sheds, Carports & Garages, Roof & Wall Cladding (QLD licensing only)
Entry Requirements	<p>This qualification does not have any specific entry requirements. However, completion of Year 12 English and Mathematics is recommended.</p>
Study Duration and Enrolment Periods	<p>Enrolments are taken on an ongoing basis. Students can enrol at any time 24/7 online, over the phone or in person during business hours. Enrolment is for a period of 12 months.</p>
Mode of Delivery	<p>NOTE: Everthought Education delivers this qualification by Recognition of Prior Learning (RPL) and/or Gap Training - NOT FULL TRAINING. The candidate requires a minimum of 3 to 4 years experience within this trade. (Please enquire for verification).</p> <p>Flexible Delivery - Online with face to face/phone/email/online Tutorial support, Face to Face, Distance delivery with face to face/phone/email/online Tutorial.</p> <p>NOTE: Practical training consists of On the Job training and applicants who wish to train with Everthought Education MUST have access to all physical resources.</p>
Cost	<p>All enrolment fees are inclusive for RPL, learner resources, assessment trainer tutorials, access to internet and issuing of qualification.</p> <p>Please to the Price List section for fee structure.</p>

CPC30211 CERTIFICATE III CARPENTRY

Version 2.2

How to Enrol	NOTE: This program is conducted by a combination of RPL and gap training. To enrol in this mode of delivery and assessment you MUST be currently working in the building and construction industry performing 'construction type' work with a minimum of 3 to 4 years current experience.
	NOTE: Practical Training consists of "On the Job" gap training and therefore applicants who wish to train with Everthought Education MUST have access to all physical resources. To enrol in this qualification please contact Everthought Education. Prior to enrolment a copy of the Student Handbook is available via download or via contacting our office.
Recognition of Prior Learning	Applicants may receive acknowledgment of their knowledge and experiences through RPL. Evidence for RPL may include: <ul style="list-style-type: none"> • work experience • life experiences (including voluntary work and leisure pursuits) • previous study e.g. qualifications, industry training professional development programs or units
Credit Transfers	The matrix below is a guide for previously gained units of competency in CPC30211.
Learning Support	Everthought Education supports many learning needs. Reasonable adjustments can be made to assist students in achieving a competent result where learning difficulties may be present. For students needing additional Language, Literacy and Numeracy support Everthought recommends Fruition Tuition – contact details are www.fruition.com.au , contact no. 1300 884 846. Everthought Education offers support via many modes including face to face tutorials, Skype, email and phone. Refer to the Student Handbook for detailed information on support offered by Everthought Education.
Work Health & Safety	Please note that CPC30211 Certificate III in Carpentry has practical units requiring field work (On the Job), therefore students must have access to the appropriate personal protective equipment to perform all practical tasks.
Contact Us	If you would like additional information about this qualification, or about any of the wide range of qualifications offered by Everthought Education , you can visit our website www.everthought.com.au or contact us via: Office: 1300 656 498 Monday to Friday: 9:00am to 5:00pm Street Address: Building 4 / 460-492 Beaudesert Road, Salisbury QLD 4107 Postal Address: PO Box 83, Salisbury QLD 4107 Email: info@everthought.com.au
To Achieve the Qualification CPC30211 CERTIFICATE III IN CARPENTRY requires the successful completion of ALL 22 Core & 8 Elective Units of Competency (30 in Total) listed in COLUMN 1.	

CREDIT TRANSFER & ELIGIBILITY FOR CREDIT in CPC30211 Certificate III in Carpentry.

If you have successfully completed ANY of the following Units of Competency or Qualifications listed in columns 3 OR 4 and you can produce copies of your qualification you will NOT have to enrol in the corresponding Unit of Competency in COLUMN 1 to complete the full Qualification because you will be given Credit for that Unit.

Evidence of your Qualification could include: Certificates and Academic Transcripts from the Registered Training Organisation who issued the qualification.

NOTE: You cannot Credit Transfer in ALL of the Qualification; a minimum of ONE Unit MUST be Completed to achieve the Qualification (Contact Everthought Education to discuss the one Unit to enrol in).

Credit Transfer Mapping

CORE UNITS in CPC30211	UNIT OUTLINE	CREDIT TRANSFER	ELIGIBLE CREDIT (CPC30211 Packaging Rules)
CPCCCA2002A Use carpentry tools and equipment	This unit of competency specifies the outcomes required to safely select and use carpentry tools and equipment. It includes hand tools, power tools, pneumatic tools, plant and equipment.	CPCCCA2002B Use carpentry tools and equipment; OR CPCCCA2002A Use carpentry tools and equipment	Nil
CPCCCA2011A Handle carpentry materials	This unit of competency specifies the outcomes required to safely manually handle, store and apply environmental management principles associated with carpentry materials and components. It includes preparing material for mechanical handling.	CPCCCA2001A Handle carpentry materials	Nil
CPCCCA3001A Carry out general demolition of minor building structures	This unit of competency specifies the outcomes required to carry out general demolition work of minor building structures to facilitate alterations, extensions and additions to a building. It includes work being completed to a work schedule, plans and specifications.	CPCCCA3001A Carry out general demolition of minor building structures	Nil
CPCCCA3002A Carry out setting out	This unit of competency specifies the outcomes required to identify site boundaries and survey indicators, and establishing, measuring and setting up profiled set outs for buildings and structural components of building work.	CPCCCA3002A Carry out setting out	Nil

CPC30211 CERTIFICATE III CARPENTRY

Version 2.2

CPCCCA3023A Carry out levelling operations	This unit of competency specifies the outcomes required to conduct levelling procedures using the rise and fall method and the height of instrument method for the purpose of establishing correct and accurate set out of buildings, their components and preparation. It includes the set up, testing and use of levelling devices and undertaking closed traverses using a range of levelling equipment.	CPCCCA3023A Carry out levelling operations	Nil
CPCCCM1012A Work effectively and sustainably in the construction industry	This unit of competency specifies the outcomes required to prepare for and sustain effective work within the construction industry. It covers the identification and clarification of the construction industry work context, scope and employment conditions, responsibility required to be accepted by the individual, working in a team, individual career path improvement activities and sustainable work practices and techniques.	CPCCCM1002A Work effectively and sustainably in the construction industry	Nil
CPCCCM1013A Plan and	This unit of competency specifies the outcomes required to plan and organise individual and group work activities on a	CPCCCM1003A Plan and organise	Nil

CORE UNITS in CPC30211	UNIT OUTLINE	CREDIT TRANSFER	ELIGIBLE CREDIT (CPC30211 Packaging Rules)
organise work	construction site. The unit includes identifying task requirements, planning steps and organising work.	work	
CPCCCM1014A Conduct workplace communication	This unit of competency specifies the outcomes required to communicate effectively with other workers in a construction workplace environment. It includes gathering, conveying and receiving information through verbal and written forms of communication.	CPCCCM1004A Conduct workplace communication	Nil
CPCCCM1015A Carry out measurements and calculations	This unit of competency specifies the outcomes required to carry out measurements and perform simple calculations to determine task and material requirements for a job in a construction work environment.	CPCCCM1005A Carry out measurements and calculations	Nil
CPCCCM2010B Work safely at heights	This unit of competency specifies the outcomes required to work safely on construction sites where the work activity involves working above 1.5 metres from ground level and where fall protection measures are required.	CPCCCM2010B Work safely at heights; OR CPCCCM2010A Work safely at heights	Nil

CPC30211 CERTIFICATE III CARPENTRY

Version 2.2

CPCCCM2001A Read and interpret plans and specifications	This unit of competency specifies the outcomes required to read and interpret plans and specifications relevant to construction operations. It includes the identification of types of plans and drawings and their functions, the recognition of commonly used symbols and abbreviations, the identification of key features and specifications on a site plan, the comprehension of written job specifications and the recognition of document status and amendment detail.	CPCCCM2001A Read and interpret plans and specifications	Nil
CPCCCM2002A Carry out excavation	This unit of competency specifies the outcomes required to undertake hand excavation tasks and excavations requiring the assistance of plant machinery to form excavations for footings, and the provision of services. It includes excavation to new and existing sites, and new services or the diversion of existing services.	CPCCCM2002A Carry out excavation	Nil
CPCCCM2007B Use explosive power tools	This unit of competency specifies the outcomes required to apply safe and effective operation of explosive power tools (EPT), used to fasten materials or fix fasteners to bases. It includes both direct action and indirect action explosive powered fastening tools.	CPCCCM2007A Use explosive power tools; OR CPCCCM2007B Use explosive power tools	Nil
CPCCCM2008B	This unit of competency specifies the	CPCCCM2008B	Nil

CORE UNITS in CPC30211	UNIT OUTLINE	CREDIT TRANSFER	ELIGIBLE CREDIT (CPC30211 Packaging Rules)
Erect and dismantle restricted height scaffolding	outcomes required to erect and dismantle restricted height scaffolding to provide work platforms for various occupational applications. It includes placement of safety barriers and only involves modular scaffolding restricted to a height of 4 metres.	Erect and dismantle restricted height scaffolding; OR CPCCCM2008A Erect and dismantle restricted height scaffolding	
CPCCCO2013A Carry out concreting to simple forms	This unit of competency specifies the outcomes required to safely install formwork, reinforcement and place and finish concrete for the construction of minor slabs, pathways and other minor works to a specified design finish. The unit includes positioning the truck, placing concrete from truck to work area, spreading concrete and cleaning up site.	CPCCCO2003A Carry out concreting to simple forms	Nil

CPC30211 CERTIFICATE III CARPENTRY

Version 2.2

CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry	This unit of competency specifies the outcomes required to carry out OHS requirements through safe work practices at any on or off-site construction workplace. It requires the performance of work in a safe manner through awareness of risks and work requirements, and the planning and performance of safe work practices with concern for personal safety and the safety of others.	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry	Nil
Construction and erection of frames, trusses, eaves and roofs field of work			
CPCCCA3003A Install flooring systems	This unit of competency specifies the outcomes required to plan, prepare, set out and install timber flooring systems to support imposed loads. It includes application in brick veneer, full masonry and timber frame construction.	CPCCCA3003A Install flooring systems	Nil
CPCCCA3004A Construct wall frames	This unit of competency specifies the outcomes required to plan, prepare, set out, construct and erect load bearing and nonload bearing wall frames for the different types of loadings determined by the roof top and bracing configuration. It includes set out, cutting and fabrication of both timber and metal wall frames, and the erection, connection and bracing of wall frames to specifications.	CPCCCA3004A Construct wall frames	Nil
CPCCCA3005B Construct ceiling frames	This unit of competency specifies the outcomes required to plan, prepare, set out, construct and erect ceiling frames to accommodate ceiling joists, hanging beams, strutting beams and composite beams. It includes selection of members and setting out of the ceiling frame in conjunction with the roof members.	CPCCCA3005B Construct ceiling frames; OR CPCCCA3005A Construct ceiling frames	Nil
CORE UNITS in CPC30211	UNIT OUTLINE	CREDIT TRANSFER	ELIGIBLE CREDIT (CPC30211 Packaging Rules)
CPCCCA3006B Erect roof trusses	This unit of competency specifies the outcomes required to select, set out, erect and brace roof trusses to accommodate roof coverings for waterproofing purposes. It includes gable, hip and valley, and hip roofing types.	CPCCCA3006B Erect roof trusses; OR CPCCCA3006A Erect roof trusses	Nil

CPC30211 CERTIFICATE III CARPENTRY

Version 2.2

CPCCCA3007C Construct pitched roofs	This unit of competency specifies the outcomes required to select, set out, construct and erect pitched roofs to accommodate roof coverings for waterproofing purposes. It includes scotch valley gable, hip and valley, broken hip and valley and combinations thereof.	CPCCCA3007B Construct pitched roofs	Nil
CPCCCA3008AB Construct eaves	This unit of competency specifies the outcomes required to prepare, set out and construct eaves, including the cutting and fixing of fascias and barges to provide a finish between the wall and the roof. It includes boxed eaves and the finish to gable ends.	CPCCCA3008B Construct eaves; OR CPCCCA3008A Construct eaves	Nil

ELECTIVE UNIT DETAILS

Elective units	Unit outline	Credit Transfer	Eligible CREDIT (CPC30211 Packaging Rules)
Elective units (8 Electives required)			A maximum of two of the eight required elective units may be substituted by selecting relevant units of competency from any Certificate III or IV construction qualification or qualification in another endorsed Training Package.
Installation field of work			
CPCCCA3010A Install and replace windows and doors	This unit of competency specifies the outcomes required to plan, prepare, set out and install window and door units, and to replace window and door units to different types and styles of buildings for access, security, weather proofing and replacement of defective windows and doors. It includes timber and metal window and door units.	CPCCCA3010A Install and replace windows and doors	Refer above.

CPC30211 CERTIFICATE III CARPENTRY

Version 2.2

CPCCCA3012A Frame and fit wet area fixtures.	This unit of competency specifies the outcomes required to install supporting framework for fixtures and flashings associated with the wet area construction for a bath, shower base and sink or basin unit, and preparation for wet area linings. It includes bathroom, laundry, shower, toilet and en suite wet areas.	CPCCCA3012A Frame and fit wet area fixtures	Refer above.
CPCCCA3013A Install lining, panelling and moulding.	This unit of competency specifies the outcomes required to prepare, set out and install lining and panelling to either masonry or timber/metal framed walls. It includes the installation of mouldings to provide decorative finishes.	CPCCCA3013A Install lining, panelling and moulding	Refer above.
CPCCCA3016A Construct timber external stairs.	This unit of competency specifies the outcomes required to construct and install timber external stairs that may involve one or more flights, to provide access into a structure. It includes timber treads and stringers.	CPCCCA3016A Construct timber external stairs	Refer above.

Elective units	Unit outline	Credit Transfer	Eligible CREDIT (CPC30211 Packaging Rules)
Formwork construction field of work			
CPCCCA3018A Construct, erect and dismantle formwork for stairs and ramps.	This unit of competency specifies the outcomes required to construct, erect and dismantle formwork for stairs and ramps to form up the concrete that may involve one or more flights in order to provide access between floors and/or landings. It includes timber, metal or prefabricated formwork.	CPCCCA3018A Construct, erect and dismantle formwork for stairs and ramps	Refer above.
CPCCCA3019A Erect and dismantle formwork to suspended slabs, columns, beams and walls.	This unit of competency specifies the outcomes required to erect and dismantle formwork to suspended slabs, columns, beams and walls to contain concrete in above ground construction. It includes timber, metal or prefabricated formwork of modular or in situ design.	CPCCCA3019A Erect and dismantle formwork to suspended slabs, columns, beams and walls	Refer above.
CPCCCA3020A Erect and dismantle jump form formwork.	This unit of competency specifies the outcomes required to erect and dismantle jump form formwork to form wall structures where the formwork process is continuous. It includes curved or straight jump form formwork.	CPCCCA3020A Erect and dismantle jump form formwork	Refer above.

CPC30211 CERTIFICATE III CARPENTRY

Version 2.2

CPCCCA3021A Erect and dismantle slip form formwork.	This unit of competency specifies the outcomes required to erect and dismantle slip form formwork to form wall structures where the formwork process is continuous. It includes curved or straight slip form formwork.	CPCCCA3021A Erect and dismantle slip form formwork	Refer above.
General electives			
CPCCCA2003A Erect and dismantle formwork for footings and slabs on ground.	This unit of competency specifies the outcomes required to erect and dismantle formwork to footings and slabs on ground, to establish levels and contain finished concrete. It includes forming basic slabs and forming rebates to slabs on ground and steps to strip footings.	CPCCCA2003A Erect and dismantle formwork for footings and slabs on ground	Refer above.
CPCCCA3009B Construct advanced roofs.	This unit of competency specifies the outcomes required to plan, prepare, set out and construct pitched roofs on irregular plan building shapes which may have skewed, splayed or hexagonal ends. It includes such roofs that include dormer windows and may be of gable, hip, hip and valley, or combinations of these that are applied to different types and styles of buildings.	CPCCCA3009B Construct advanced roofs; OR CPCCCA3009A Construct advanced roofs	Refer above.

Elective units	Unit outline	Credit Transfer	Eligible CREDIT (CPC30211 Packaging Rules)
CPCCCA3011A Refurbish timber sashes to window frames	This unit of competency specifies the outcomes required to refurbish timber sashes to window frames to rectify operation of external windows for ongoing use. It includes timber casement windows and double hung windows, and the refitting of timber sashes.	CPCCCA3011A Refurbish timber sashes to window frames	
CPCCCA3014A Construct bulkheads.	This unit of competency specifies the outcomes required to construct bulkheads to conceal services or for decorative purposes. It includes straight, curved and geometric shaped bulkheads, generally constructed in situ and includes prefabricated fitments.	CPCCCA3014A Construct bulkheads	Refer above.
CPCCCA3015A Assemble partitions	This unit of competency specifies the outcomes required to set out and assemble partitions for the purpose of dividing areas into useable spaces. It includes prefabricated and demountable partitions constructed of timber or metal.	CPCCCA3015A Assemble partitions	Refer above.

CPC30211 CERTIFICATE III CARPENTRY

Version 2.2

<p>CPCCCA3017B Install exterior cladding.</p>	<p>This unit of competency specifies the outcomes required to install material finishes applied to an external framed wall surface for the purpose of weatherproofing and securing the building. It includes sheet material, weatherboarding of timber, plastic, metal and fibre cement sheet.</p>	<p>CPCCCA3017B Install exterior cladding; OR CPCCCA3017A Install exterior cladding</p>	<p>Refer above.</p>
<p>CPCCCA3022A Install curtain walling</p>	<p>This unit of competency specifies the outcomes required to fit and fix curtain walling facades to multi-storey structures to provide external cladding of structural steel or reinforced concrete. It includes fabricated frameworks with metal cladding, fabricated framework with glass panels, pre-cast concrete panels, and manufactured and natural stone products in or on the structure.</p>	<p>CPCCCA3022A Install curtain walling</p>	<p>Refer above.</p>
<p>CPCCCM3001C Operate elevated work platforms</p>	<p>This unit of competency specifies the outcomes required to safely and effectively operate some types of elevated work platforms (EWPs) in a variety of different terrains and situations to access isolated work areas. The unit includes locating, setting up, operating and shutting down EWPs.</p>	<p>CPCCCM3001C Operate elevated work platforms</p>	<p>Refer above.</p>

Elective units	Unit outline	Credit Transfer	Eligible CREDIT (CPC30211 Packaging Rules)
CPCCSF2003A Cut and bend materials using oxyLPG equipment	This unit of competency specifies the outcomes required to heat, cut and bend construction materials using oxy-LPG equipment. It includes planning and preparation for the work, setting up and testing the equipment, cutting materials, heating and bending materials, shutdown of equipment and completion of clean-up activities.	CPCCSF2003A Cut and bend materials using oxy-LPG equipment	Refer above.
CPCCSF2004A Place and fix reinforcement materials.	This unit of competency specifies the outcomes required to place and fix reinforcement for concrete work as part of construction processes. It includes planning and preparation for the work, final preparation for placement, placing and fixing reinforcement, checking the reinforcement and completing clean-up activities.	CPCCSF2004A Place and fix reinforcement materials	Refer above.
CPCCWC3003A Install dry wall passive fire-rated systems	This unit of competency specifies the outcomes required to select and install dry wall fire-rated systems to walls and ceilings. It includes planning and preparation for installation; installation of approved systems for timber stud walls, steel stud partitions, shaft walls, timber joist and suspended ceilings; and completion of post-installation activities.	CPCCWC3003A Install dry wall passive fire-rated systems	Refer above.
RIICCM210D Install trench support	This unit describes a participant's skills and knowledge required to install trench support in Civil construction. This unit is appropriate for those working in operational roles.	RIICCM210D Install trench support; OR RIICCM210A Install trench support	Refer above.
RIIWHS202D Enter and work in confined spaces	This unit describes a participant's skills and knowledge required to enter and work in confined spaces in the Resources and Infrastructure Industries. This unit is appropriate for those working in operational roles undertaking work in confined spaces.	RIIWHS202D Enter and work in confined spaces; OR RIIOHS202A Enter and work in confined spaces	Refer above.

Page

Elective units	Unit outline	Credit Transfer	Eligible CREDIT
----------------	--------------	-----------------	-----------------

			(CPC30211 Packaging Rules)
RIIWMG203D Drain and dewater civil construction site	This unit develops a participant's skills and knowledge required to drain and dewater civil construction sites in Civil construction. This unit is appropriate for those working in operational roles.	RIIWMG203D Drain and dewater civil construction site; OR RIIWMG203A Drain and dewater civil construction site	Refer above.
BSBSMB301A Investigate micro business opportunities	This unit describes the performance outcomes, skills and knowledge required to develop business ideas, and to investigate market needs and factors affecting potential markets. Specific legal requirements apply to the management of a micro business.	BSBSMB301A Investigate micro business opportunities	Refer above.
BSBSMB406A Manage small business finances.	This unit describes the performance outcomes, skills and knowledge required to implement, monitor and review strategies for the ongoing management of a small business's finances. It also includes day to day financial management of the small business. Specific legal requirements apply to the management of a small business.	BSBSMB406A Manage small business finances	Refer above.
CPPCMN3001B Participate in environmentally sustainable work practices	This unit of competency specifies the outcomes required to participate in environmentally sustainable work practices. The unit requires the ability to identify current resource usage in the workplace and contribute to ensuring compliance with legislative requirements. It also requires the capacity to contribute to improvements in sustainable work practices. It is essential that the organisation's approach to ensuring environmentally sustainable work practices, and the benefits that they bring, are understood. The unit must be applied strictly according to relevant state or territory legislative and industry requirements.	CPPCMN3001B Participate in environmentally sustainable work practices; OR CPPCMN3001A Participate in environmentally sustainable work practices	Refer above.

<p>BSBSMB401A Establish legal and risk management requirements of small business</p>	<p>This unit describes the performance outcomes, skills and knowledge required to identify and comply with the regulatory, legal, taxation and insurance requirements, and risk management needs of small business. Specific legal requirements apply to the management of a small business.</p>	<p>BSBSMB401A Establish legal and risk management requirements of small business</p>	<p>Refer above.</p>
